To Whom it May Concern

Ré: Listeria Outbreak and Feedem Action Plan

Feedem is committed to safe food standards in all our contracts in South Africa. We have a continuous process of monitoring hygiene and safety standards for all our Suppliers.

Actions taken to date:

- All Suppliers were requested to confirm if they stock the Enterprise processed meat range as well as RCL Rainbow Polonies.
- One of our Suppliers have confirmed that they stock some of the Enterprise and/or RCL Rainbow Polonies. Subsequently these products have been isolated, recalled and will be uplifted immediately. No further distribution of these products will be permitted.
- We have received confirmation letters from the rest of the relevant suppliers that guarantee that these products were not stocked nor distributed to any Feedem units.
- Suppliers were instructed to confirm in writing if they have been tested recently for Listeria Bacteria in their factories and to confirm the test results.
- All Suppliers that also produce processed meat ranges, have confirmed negative results for Listeria Bacteria.

Please be assured that we have been monitoring the situation closely and proactively ensuring the Food safety and Occupation Health and Safety Standards are adhered to.

Should you have any specific concerns, please do not hesitate to contact any of our Operations Managers on the following numbers:
