

## New Building Staring Soon!

Prim Villa are very happy to have acquired another new property. Head Office, with permission from the Board of Directors, has purchased the house directly behind the main Prim Villa Care Centre in Begonia Road. The staff are all very excited as this is going to be renovated and a new state of the art industrial kitchen and laundry will be built. As the home has expanded over the years the original kitchen and laundry have become far too small. Feedem and their staff have been very patient and consistently produce delicious meals and cope with the laundry under very difficult circumstances as far as space is concerned. Not for long! The plans have been completed and submitted for approval and as soon as all the necessary documentation has been approved the building will begin. There will be a newly fitted industrial kitchen, a large laundry with new equipment that will make life better for everyone and enable us to provide an even better service to our residents.

Above and left are our before pictures of our existing laundry and kitchen.

Keep an eye out for our “after” pictures which will be posted once work has been completed.

We have a number of other projects on the go in conjunction with the laundry and kitchen make-overs. News on these will be posted in the near future.
