

## Do what you Love

---

If you enjoy what you do you don't have to work a day in your life. No matter where you are in the ranks or what you do, if you are happy at work it shows! It has been proven that the more you love your job the more productive you are. You deliver more and this creates a win-win situation. You are happy, the company is happy, your residents receive the best care possible, so they are happy which makes their family happy.

If you don't do what you love, you will never love what you do. Everyone has been made for some particular work and the desire for that work has been put in every heart. Believe in yourself and trust your gut and don't be afraid to change careers if you are miserable at work, don't let fear or insecurity stop you from trying new things. Your work is going to fill a large part of your life and the only way to be truly satisfied is to do what you believe is great work. You can only become truly accomplished at something you love.

This is how we try to work at Prim Villa. We do our best to make everyday fun without compromising our work. We instil this culture in all our staff members, including the outsource staff. You seldom see a long face at Prim Villa but often hear bursts of laughter. Laughing with and not at our residents is such good therapy for them. We find something that triggers their sense of humour and love it when they laugh out aloud. Everyone has good days and bad days and that's normal, but there should always be more good days than bad. A happy and fun atmosphere is contagious. You can choose to join in or not!
