# Pillow Fort Under Construction

Several Summerfield Park residents enthusiastically engaged in constructing a "pillow fort".

The fort took shape as more people brought their pillows to the pop-up event. All pillows were wrapped in plastic as a precaution against Covid-19 infection. This also made sure that the pillows were kept clean.

Mrs Amalia Bene agreed to be the centrepiece, and remained seated while the fort was built around her.

Building a pillow fort proved to be thirsty work. The builders enjoyed a cool, alcohol-free drink to celebrate a job well done.

The activity was a whole lot of fun and an off-the-wall idea that really worked. The next phase of construction is scheduled for September 2nd, when a pillow fort building competition will be held on the lawn.

Our thanks to the members of the Entertainment Committee for coordinating this exciting event.
