

SUMMIT NEWS SNIPPETS - SEPTEMBER

Our residents are very happy that we are having a few days of warmer weather and are out and about enjoying the beautiful gardens. They have been sharing pictures of the beautiful gardens and plants with each other on the WhatsApp Social group that was created for them.

On 2 October 2004 one of our resident couples – Godfrey and Cynthia Micklethwaite - moved into Summit and, as can be seen from their post on the group, it is the best decision that they have made and they are very happy at Summit Village. Godfrey has recently been a member of our Resident Committee and also manages the table tennis games weekly. Cynthia makes hand-made greeting cards that are very popular in the Village and also knits teddy bears for hospitals for children who are abused. Godfrey and Cynthia are stalwarts in the Village and also very popular with their friends in the Village. We are delighted to celebrate their 16th Anniversary at Summit with them.

We have quite a few units open in our Village at the moment and the pressure is on to get people in and fill the vacancies. We have 1 new resident that will be moving in within the next week and another in mid-October.

We have been showing units to a few interested parties and are holding thumbs that one of them will be a confirmed sale.
